TREVO

Description

Contains 946 ml.

Trévo is not just another fruit drink, nor is it just another multi-vitamin. In a world of sugar-filled juice drinks and caffeine-saturated energy shots, Trévo stands alone as a complete health system in one bottle. Containing 174 of nature's finest nutraceutical ingredients from around the globe, Trévo is unlike any other nutritional supplement you will find on the market. This remarkable formula provides you and your family with a quick, delicious and easy way to restore, renew and revive your bodies.

The beauty of this unique formulation is that it actually replaces what the body is missing from today's nutrient-depleted diets. And, because of the way our scientists have designed its formulation, Trévo will work for everyone. It really is the best of all nutritional worlds! Trévo is, in fact, a delicious answer to your family's need for complete, natural nutrition.

So, are you ready to enjoy increased energy, enhanced mental focus, vibrant good health and even weight management support? If so, Trévo is the answer you have been searching for.

1. RESTORE

The first phase is called "Restore." It is designed to restore vital energy and mental focus naturally by stimulating your body with a myriad of powerful nutraceuticals including fabulous energy-enhancing botanicals and superfruits such as gotu kola, ashwagandha, borojo, bacopa, schizandra fruit, Korean ginseng and noni fruit. We have also included energy boosting essential vitamins and minerals, amino acids, plant and sea trace minerals, Co-enzyme Q10, alpha lipoic acid and grape seed extract.

2. RENEW

Our second phase is called "Renew." It is designed to renew your body with a proprietary phytonutrient-rich blend of life-giving fruits, vegetables and sea vegetables as well as essential fatty acids from borage seed oil and flaxseed oil. Plus it features chlorella, blue green spirulina, barley grass, kelp and wheatgrass, which are all referred to as green superfoods.

3. REVIVE

Our third phase is called "Revive." This phase is designed to revive your body's anti-aging and immune function support with exotic, free radical-fighting super-antioxidants such as camu camu, maqui berries, mangosteen, acai berries, amalaki fruit, acerola cherries and goji berries. We have also included potent coral calcium complex as well as phytonutrient-packed herbs like ellagic acid, graviola, turmeric, green tea, lycopene, milk thistle, pau d'arco, cat's claw, bilberry and hawthorn berry.
